

▼ **INGREDIENTS**

Supplement Facts		
Serving Size: 2 capsules		
Amount Per Serving		% Daily Value
Zinc (Chelate).....	23 mg	154%
Proprietary blend.....	500 mg	*
RNA/DNA Pancreas Tissue Factors		
Catuaba (Root)		
Cyani (Flowers)		
Japcanga (Leaves)		
Pata de Vaca (Leaves)		
Pedra Hume Caa (Leaves)		
* Daily Value not established.		

Other Ingredients: Gelatin, Dextrose and Leucine

▼ **DOSAGE**

- 1-2 capsules, twice a day, for 1-6 months, or as directed.
- Concentrated extract, CXP (Pancreas), 4-5 drops, twice a day.

▼ **PACKAGING**

- 60 capsules/eco-bottle.
- Concentrated extract, CXP (Pancreas), 1/2 oz. glass bottle with dropper.

▼ **PERSPECTIVE**

The pancreas is a dual function organ with separate endocrine and exocrine functions. Its endocrine hormones include insulin, glucagon, and somatostatin which control blood glucose and its induction into the cells for ATP energy. Its exocrine function is to produce digestive enzymes for proteins, fats, and carbohydrates.

▼ **LIFESTYLE**

#78 P (Pancreas)
#2078 CXP (Pancreas)

A unique formula comprised of a synergistic blend of European and Rain Forest herbs designed to provide nutritional support for the pancreas' endocrine and exocrine functions; thus considered as "tissue support" for pancreatic performance integrity.

▼ **INDICATIONS**

- Pancreatic tissue support
- Pancreatic normal endocrine function
- Pancreatic normal exocrine function
- Islets of Langerhans (beta cell) normal processes

▼ **KEY COMPONENTS**

- **Zinc** – Pandemically deficient in the U.S. diet. Beyond its well-known benefits for reproductive and heart health, zinc binds to insulin so it can be stored in the pancreas. Zinc is a component of the enzymes necessary for site-binding to cell membranes.
- **Catuaba Root** – Known as a libido and mood enhancer, it also addresses the normal cell-protective mechanisms for the beta cell integrity.
- **Cyani Flowers** – Supports normal blood and liver purification processes. Supports normal immune activities.
- **Japcanga Leaves** – Rainforest botanical. Supports normal hepatic and renal functions.
- **Pata de Vaca** – A predominant rainforest herb long associated with supporting normal blood and cell glucose processes. Researched in 1929, it demonstrated support for glucose metabolism. In Brazilian herbology, it's called "vegetable insulin" for its support of normal pancreatic endocrine processes.
- **Pedra Hume Caa** – A rainforest herb with a long tradition of supporting normal blood/cell glucose processes. Along with Pata de Vaca, it's called "vegetable insulin" as its action is to help cell membrane glucose receptors with normal sensitivity functions. In Brazilian herbology, it's also applicable for supporting normal nerve processes.

▼ **CONTRAINDICATIONS**

None known. While containing a number of therapeutic botanicals, Doc Wheelwright taught that combined herbal formula nutrients work synergistically deriving the most benefit from small amounts of ingredients that enhance and support each other to gain beneficial impact.

▼ **CLINICIAN CONSENSUS**

- General Pancreas Support:
#78 P - Pancreas
#620/625/630 Metabo-Shake - Glycemic Support
#79 PS - Pancreas-s
#875 SYNULIN - Glycemic Balance

▼ **BACKGROUND**

Doc Wheelwright developed elevated blood glucose after suffering pancreatic damage from the pesticide 2-4-D. On his arrival in Texas for a month-long tour, clinical nutritionist Jack Tips ran blood work and Doc's glucose was 362 mg/dL. Doc went "herb picking" along Barton Creek in the Texas hill country, and picked a flowering, green-leafed trailing vine. He macerated it in water and drank a quart *tid*, and also worked with a magnetic device. Five days later, his glucose was much improved at 100 mg/dL. The herb he picked was powerful and considered "not recognized as safe" as it could possibly damage the liver. Because of his need to rejuvenate his own beta cell functionality, he turned to the Brazilian herbs and developed the P (Pancreas) formula. Once manufactured, Doc ran a small clinical trial that demonstrated the formula's efficacy as nutritionally supportive.

▼ **SYNERGISTIC CONSIDERATIONS**

- #875 SYNULIN - Glucose Balance
- #79 Ps - Pancreas-s
- #625/630 Metabo-Shake - Glycemic Support
- #31 Ga - Adrenal
- #880/881, #882 Vista One & Two - Membrane Regeneration
- #870/#872 Spectra One & Two - Herbal Whole Food Cellular Multi-Vitamin/Mineral/Oil
- #32 Gb - Pituitary
- #850 MoRS - Methylation Donor
- #184 ROX - Super Antioxidant
- #820 EPIC - Metabolic NO/ONOO Antioxidant
- #433 GCEL - Intracellular Glutathione
- #61 Lb - Liver/Gall Bladder
