

▼ **INGREDIENTS**

**Supplement Facts**

Serving Size: 2 capsules

| Amount Per Serving   | % Daily Value |
|--|---------------|
| Proprietary Blend.....   | 975 mg        |
| <small>Pancrealipase; Goldenseal (Root); RNA/DNA Oxible Tissue Factors; Kola Nut (Tree Nut); Stomach Parenchyma; L-Aspartic Acid; Betaine HCl; L-Glutamic Acid; RNA/DNA Pancreatin Tissue Factors; Echinacea Purpurea (Root); RNA/DNA Liver Tissue Factors; Pepsin 1/3000; Ammonium Chloride</small> |               |

\*Daily Value is not established.  
Other Ingredients: Gelatin, Dextrose & Leucine

▼ **DOSAGE**

- Digestion: 1-2 capsules up to twice a day for 1-3 months, with meals, or as directed.
- Blood/tissue cleansing (protein, carbohydrate, fatty acid artifacts): Two capsules on an empty stomach, twice a day, or as directed

▼ **PACKAGING**

- 60 capsules/eco-bottle.

▼ **PERSPECTIVE**

Nutritional health is based on the intake, assimilation and utilization of "non-self" materials (proteins, fats, carbohydrates, minerals, vitamins, nutrient factors) and converting them to "self." A key factor in this process is proper digestion of ingested foods. Comprehensive enzyme supplementation supports the gamut of dietary intake.

▼ **LIFESTYLE**

**#17 D (Digest)**

Provides a *self-limiting*, enzyme solution that supports normal digestion of proteins, carbohydrates, and fats. A broad-spectrum digestive support formula that promotes normal healthy digestive acid and enzyme processes. This formula has two primary uses:

1. Use with food for broad, digestive benefits, and to support normal activity in the stomach/digestive system.
2. Use between meals to support the normal processes that breakdown undigested protein and fat artifacts.

▼ **INDICATIONS**

- Support normal digestive processes
- Help for digestion of heavy meals
- Help with absorption of cellular nutrients
- Support normal digestion activity
- Any cooked meal to compensate for loss of inherent food enzymes
- People over 30 years old (enzyme production decreases with age)
- Digestive support for normal digestion of potentially allergenic food molecules
- Help engage the body's normal release of pancreatic enzymes
- Support the body's innate microbial balance processes
- Support lower bowel programs

▼ **KEY COMPONENTS**

- **Lipase** - A class of enzymes that catalyze the hydrolysis of fats. Performs an essential role in the digestion, transport, and processing of fats for cell membranes and beta oxidation energy processes.
- **Protease/Peptidase** - A class of enzymes including trypsin, chymotrypsin, and pepsin that help break down proteins into usable amino acids for cellular processes.
- **Amylase** - Enzymes that break down carbohydrates into smaller carbohydrate molecules for cellular energy processes..
- **Ox Bile** - Helps digest food and support healthy liver and gall bladder processes.
- **Betaine HCl** - (Hydrochloric Acid) - facilitates normal digestive processes and parietal cell integrity.
- **Goldenseal** - An herb with a long history of supporting healthy digestive processes as well as GI tract microbial balance.
- **Aspartic Acid** - Also known as aspartate, is an  $\alpha$ -amino acid that is used in the biosynthesis of proteins. A nutrient necessary for normal digestive metabolic processes.
- **L-Glutamic Acid** - Works in tandem with Betaine HCl to stimulate natural HCl.
- **Ammonium Chloride** - Helps support normal digestive processes. A pH buffer. Provides chlorides for normal HCl production.
- **Cream of Tartar** - A source of potassium electrolytes necessary for bowel function.

▼ **CONTRAINDICATIONS**

Historically, this formula has exhibited exemplary safety. If stomach ulcers are present, this formula might be too assertive, and the Ds (Digest-s) formula would be preferable.

▼ **CLINICIAN CONSENSUS**

- Support Weak Digestion:  
#17 D-Digest  
#2 Builder

▼ **BACKGROUND**

During an era where consumers were becoming dependent on papaya tablets and digestive aids, Doc Wheelwright designed this formula with the intent of building and rebuilding the stomach's innate digestive processes. A rich and potent blend of enzymes (amylase, protease, lipase), D allows the digestive system to rest and improve while the body benefits from increased absorption of nutrients. The nutritional components assist with rebuilding digestive integrity. This is why Doc Wheelwright described this formula as being "self-limiting." Doc also recommended that everyone over 30 years old needed to support their digestion to ensure uptake of cellular building factors.

▼ **SYNERGISTIC CONSIDERATIONS**

- #1 Activator
- #2 Builder
- #6 Restore
- #100 ABC - Acidophilus & Bifidus Complex
- #138 MBC - Microbiome Colonizers
- #200 AO - Aloe Vera
- #428 DSIR - Intergen
- #467 LGUT - Leaky Gut
- #920 Core Cellular Program
- #740 Earth Sedate - Clear Congestion
- #745 Earth Tonify - Warm The Center
